“Beginnings”

*As clouds on the horizon forms come and go and they come again.
Seasons come and go and the rhythms and cycles of nature hide the ancient
treasures of the past and give them life on a new horizon.
The luminous constellations of the past disappear and come again embodied in new forms.
The ancient symbols etched in stone record this truth.
The source is the Creator, an infinite being,
and is the essence and the potential of all living forms.
In its purity it is self-existent and carries the universe in all
dimensions and all directions. Its breath gave light to the darkness
releasing into each thing unfolding motion, so that the circle of life would be unbroken.
Above us all is the long living spirit of the sun, whose glowing strands weave us together
generation after generation.. This journey of earth, seed and stone
is easier with the secret understanding that when the time is right all things
are released from their hidden places and brought to the light of day.*

“Return”
by Stan Padilla

*The seed is for planting in this season,
it is for those who will breathe the fragrance of a future flowering.*

****The seed must be cared for,
it must be planted in the heartbeat of warmth,
it will germinate with the liquidity of our intentions.***

*When this is done in the circle of each generation,
the wheel of light will be complete.*

Extinguish Chalice + Closing Words

***As we go forth, may we carry the flame of Love,
and Peace with Justice, until we meet again,
Blessed Be.***
